DETAILED ACTION

Status of the Claims

Claims 1-31 are pending in the present application and are examined herein on the merits for patentability. No claim is allowed at this time.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 28-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 28-31 provide for the use of a silicone agent, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 28-31 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper

Art Unit: 1616

definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Objections

2. Claims 4-27 and 29-31 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Sakuta (US 6,503,519).

Sakuta discloses a nonaqueous antiperspirant composition comprising dimethylpolysiloxane (organopolysiloxane elastomer which does not comprise a hydrophilic group) and an aluminum zirconium compound (active ingredient) (Example 1). Sakuta also discloses transparent antiperspirant compositions in gel state (Examples 4-6). See also Examples 7-12.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Raman et al. (EP 0 512 814 A1).

Raman et al. disclose an anhydrous formulation comprising volatile silicone and antioxidant (Example 13), wherein volatile silicone/siloxane includes polydimethylsiloxane (pentamer and/or hexamer) (pg. 11, ln. 15-20).
